

July 14, 2015

Dear Valued Supplier:

There's much more to True Value Foundation's Charity Classic than golf – your generous support directly improves the lives of underserved youth and their communities. True Value remains deeply committed to our 35-year relationship with the Boys and Girls Clubs of Chicago, as well as reaching more neighborhoods across the country with our national Boys & Girls Clubs of America partnership, which is made possible thanks to you!

There is strength in numbers. Through our supplier community, you helped us raise more than \$1 million during this year's Charity Classic. Your dollars are hard at work during the critical hours after school, and the summer months, when clubs are helping kids stay focused on activities centered on academic success, a healthy lifestyle, good character and citizenship.

We are also improving learning environments by revitalizing schools across the country through our Painting a Brighter Future program. Research confirms that new paint and the cleanliness of school walls can have a positive impact on student attitudes and academic performance.

During our Fall Reunion, we will be painting a brighter future with a truly special community service project as True Value Foundation adopts the Boys & Girls Club in Chicago's Little Village community. On September 16, the foundation will host festivities around the renaming of the club including club improvements, a ribbon cutting ceremony and fun activities with the club's youth. Please sign up during your registration process for Fall Reunion. We look forward to seeing you there!

Your spirit of giving fuels our ongoing commitment to children and our communities. We know we can't do it without your generous support. Thank you.

Kind regards,
